

## Parameter Programming Key

### Technical data

**Battery**

Voltage: 12V

Type: 23A

**Storage temperature**

-20°C to 70°C / -4°F to 158°F

**Operating temperature**

0°C to 50°C / 32°F to 122°F

**Dimensions**

56 x 36 x 16 mm (2.20 x 1.42 x 0.63 inch)

- Battery powered.
- It allows to load the parameter set from a controller and then copy them into other controllers of the same type.
- It has a micro-switch for function selection:
  - Load the parameter set from a controller.
  - Copy the parameter set into controllers.
- The power for the copying operation is provided by the key itself, so the controller must not be powered.
- Low battery, controller type and communication error indication.
- Use always recommended batteries in its correct position.

MODEL: KLKEY

Options: Call factory
