**Customized Variable Speed Drives**  
**KMD Series**

## Custom Solutions

With KELD drives you get the most technological advanced devices. We provide the exact requirements you need for the highest efficiency and best performance for your application.

**Customized devices**, to fit into an existing housing - usually added to the motor, or into a new housing specially designed for the application.

**Stand-Alone units**, with high IP index, mainly intended for harsh environments such as industrial zones, livestock farms, poultry houses, greenhouses, etc. Check our new KMD series inside.

### Control APP

- User-friendly interface
- Commissioning and Diagnosis
- Bluetooth communication
- Password protected

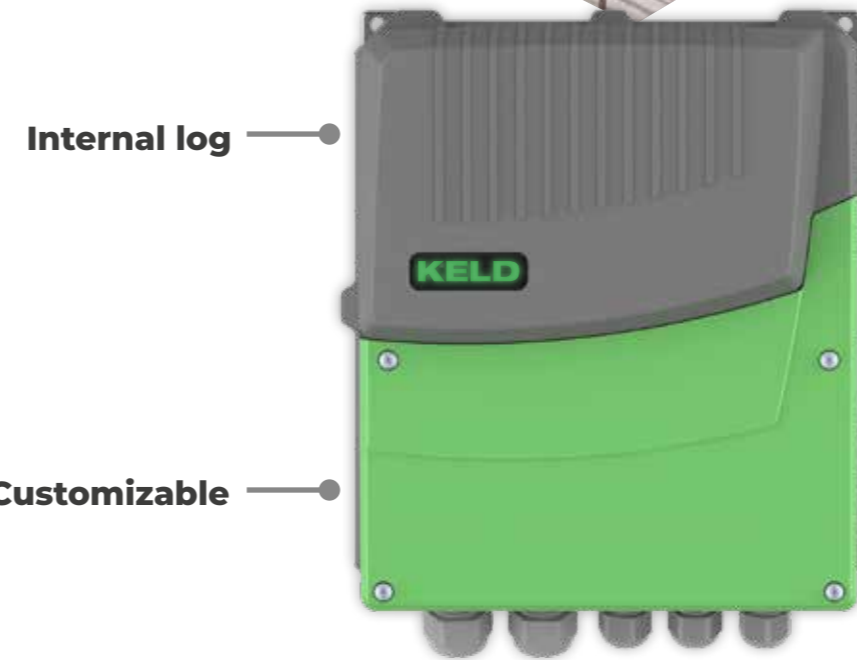

## KMD SERIES

0,37kW to 15kW  
1PH and 3PH

Easy to wire
