KELD

SINCE 1972 · ZARAGOZA, SPAIN

Engineering + Manufacturing, Together.

So your products stay ahead.

We co-design and manufacture the **drives, controllers and custom electronics** at the heart of your product.

50+ years of custom electronics

30+ export countries

ISO 9001 certified

10+ years client partnerships

What we build

Variable Speed Drives
Purpose-built for your motor and load profile.
KMD Series · 1–7.5 kW · IP66

HVAC & Temperature Control
Controllers built around your equipment.
KTS Series · 8 models

Custom Electronics
From your specification to series production.
Your design · your IP

Why manufacturers choose KELD

- **Co-engineering**
  Shorter qualification, less ramp-up risk.
- **One partner, one facility**
  Design to production, no handoffs.
- **Flexible production**
  200 or 20,000 units, same quality.
- **Your IP stays yours**
  NDA before any technical exchange.
- **Lifecycle continuity**
  Obsolescence and regulations managed for you.

How we work

01 Co-Design
DFM, DFT and cost

02 Industrialization
APQP · CE · UL

03 Production
All in-house

04 Traceability
Every unit logged

05 Lifecycle
Long-term support

Industries we serve

- Electric motors
- Fans & ventilation
- Pumps & compressors
- HVAC & climate
- Refrigeration
- Industrial equipment

Quality you can audit

- **ISO 9001** quality system
- **APQP-informed** product introduction
- **CE, UL, RoHS** compliance support
- **Open-door** supplier audits
